Journyx

TURN FIELD TIME INTO DEFENSIBLE LABOR COST DATA

Simple for crews. Robust for the office.

Journyx helps utilities capture field time accurately and connect it to projects, work orders, capital and O&M. Crews get a simple way to enter time, while office teams get the records needed for approvals, payroll, reporting, and audits.

THE OUTCOMES UTILITIES CAN COUNT ON

ACCURATE CAPITAL AND O&M LABOR ALLOCATION

Tie hours to projects, work orders, tasks, and cost codes for clearer labor cost tracking.

STRONGER SUPPORT FOR AUDITS AND COST RECOVERY

Maintain work details, approvals, and supporting records for capital projects, grants, and reimbursement requests.

FEWER CORRECTIONS AND MANUAL HANDOFFS

Reduce time-entry errors with configurable validations and approval workflows.

BETTER VISIBILITY INTO PROJECT LABOR

See labor hours against work performed and connect approved records with your business systems.

FROM FIELD TO FINANCE

Less manual work in the field. More confidence in the numbers that reach finance.

CAPTURE WITH EASE
Field-friendly time entry, tied to projects and work orders.

VALIDATE AUTOMATICALLY
Catch errors, apply labor rules, and streamline approvals.

DELIVER DEFENSIBLE DATA
Give finance accurate labor costs and audit-ready records.

BUILT FOR THE WAY UTILITY TEAMS WORK

From field crews to finance, Journyx helps utilities capture, manage, and report labor time with accuracy and confidence.

TIME CAPTURE

Make time entry simple for every team.

- Mobile and web time entry
- Crew entry for supervisors managing team timesheets
- Time allocated to projects, work orders, and cost codes
- In/out time entry and equipment tracking

VALIDATION & APPROVALS

Catch issues before they reach payroll and finance.

- Configurable approval workflows
- Time-entry validation and labor rules
- Overtime tracking and configurable calculations
- Supervisor review and exception handling
- Approval history and supporting records

FINANCE & REPORTING

Turn approved hours into reliable labor cost data.

- Project and O&M labor reporting
- Labor cost allocation and visibility
- Payroll and billing support
- Project hierarchy and cost-code tracking
- Bi-directional ERP and payroll integrations

KEY CAPABILITIES

SMART TIMESHEETS

Save time with suggested entries based on Microsoft Exchange calendar events and tasks.

CREW ENTRY

Capture and manage hours for multiple employees with fewer manual steps.

OVERTIME MANAGEMENT

Track overtime and apply configured pay rules to support accurate labor calculations.

EQUIPMENT TRACKING

Track equipment usage alongside labor hours for more complete project and work-order costs.

VALIDATION & APPROVALS

Catch errors early with configurable checks and approval workflows before time reaches payroll and finance.
