THE CHAPARRAL STORY

How Journyx helped the rapidly-growing oil & gas company to better understand their costs

AN INFOGRAPHIC

TOP ISSUES THEY NEEDED RESOLVED REGARDING TIME TRACKING

- An Automated Timesheet System
- Data for Analyzing Project Costs
- Reduction in Accounting Efforts
- Insight into Hrs Worked v.s. Hrs Billed

Here's where Chaparral was at and how Journyx solved their problems:

# of Chaparral employees previously tracking their time on paper timesheets

700+

The Results Are In...

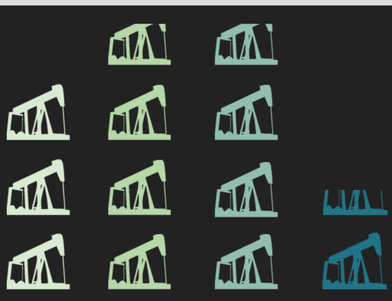
With 500+ Journyx licenses, Chaparral employees can now spend time on things that matter:

25% of field hands and oil well workers now enter time directly into Journyx

Employees now track costs on the AFE level & report daily on well & equipment costs

Accountants now have automated info from the source, eliminating double-data entry & spreadsheets

Top Uses of Journyx by Chaparral Energy



- Project Accounting
- Equipment Utilization Reporting
- Time Tracking
- DOT Reporting

"What Journyx offers is a means of organizing field operations data in a manner that allows us to feed data to other systems. Better information means better decisions by management on how to best deploy our field assets, resulting in cost savings and a better return on our investments."

-Mike Pearman, Business Systems Analyst, Chaparral Energy
