ENTERPRISE TIME AND EXPENSE TRACKING FOR MICROSOFT DYNAMICS

Journyx Time and Expense Tracking for Dynamics NAV

Journyx maximizes the value of Microsoft Dynamics NAV by adding enterprise time and expense tracking - integrating the two systems and allowing companies to quickly implement a complete time and expense tracking solution using existing business data.

The key to gathering rich time data is to make it as easy as possible for people to get their time entered in the first place. Our well-tested Jobs interface guarantees that data is easily accessible so your jobs are always on time and within budget. Whether online or offline, desktop or mobile, local or remote, Journyx makes it easy for people to track all of their time.

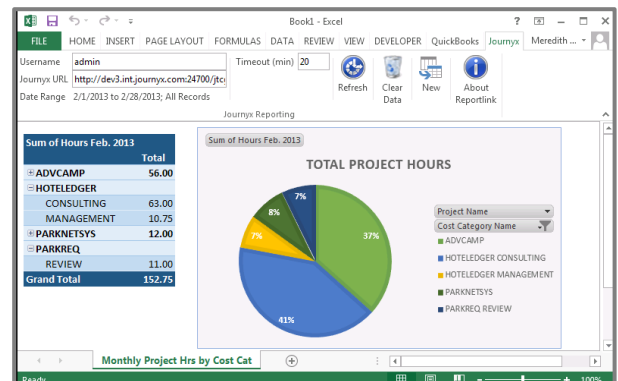

Track all types of time, one time and in one system. Use the data anywhere.

Features of Journyx for Dynamics NAV:

- Track all types of time, including job and payroll time, in one place
- Easily manage accruals and time off requests
- Make multi-level, timesheet, and job-based approvals
- Integrate with all your key business systems, including Microsoft Project, ADP, etc.
- Reduce timesheet corrections with data entry validation
- Generate robust reports and export to Excel
- Comply with DCAA, HIPAA, and other federal requirements
- Manage resources easily with availability graphs and Gantt charts
