

## Acumen's GT555 Employee Time Clock

Acumen Data Systems' GT555 employee time clock is ideal for time and attendance data collection. With its 10" touchscreen color display, the GT555 is one of the most impressive employee time clocks available today - both in terms of appearance and functionality. It offers quick and easy customization to provide any unique functionality you require and provides expandability with its six USB2 ports.

### The Best Employee Time Clock

The GT555 was awarded Best Employee Time Clock by Best Time and Attendance because of its breathtaking design, customization capabilities, easy plug-and-play integration functionality, employee self-service options and system security.

### Reliable Biometric Clocking

Acumen's GT555 features true plug-and-play biometric (optional) fingerscan clocking that helps eliminate buddy punching and employee overpayment for late punches or extra breaks. Additionally, you could set the GT555 to take a picture upon failed punch transactions, to capture a photo of the employee, directly from the clock.

### Advanced Functionality at a Brilliant Price

The GT555 also features Fast Clocking to speed employee Punches. If you have standard shifts where employees typically clock in or out, you can set the terminal to stay in the In or Out screen.

The GT555 offers many employee self-service functions that can't be found elsewhere. Employees can request a day off, view time off approvals, view total hours worked for the pay period, view their last activity, and view their current department, job, task, and status - all directly from the terminals convenient touchscreen display.

The plug-and-play capability of the GT555 is truly amazing. Bar code or proximity badge readers are also available - and quickly integrated – along with the biometric scanning capabilities.

### Terminal Functionality Snapshot

- Punch In & Out for Day, Break, Job, or Task
- Fast Clocking - Stays in Mode for In / Out
- Enroll Employees from Terminal
- Transfer Employees from Terminal
- Employees can Request Time Off
- Employees can Review Time Off Approvals
- Employees can View Total Hours Worked
- Employees can View Last Punch

## Technical Specifications

Display:	10" widescreen TFT LCD color display (1024 x 600 pixels) with LED backlight; precision resistive touch screen.
Camera:	2 megapixel color camera with video capability.
Audio:	High quality sound with internal microphone and stereo speakers for audio / video messaging.
IR Detection:	Active IR detection for energy saving mode when nobody is in front of the terminal.
Processor:	High performance, low energy Freescale Cortex A8 800 MHz processor.
Memory:	SD memory card slot.
SD Socket:	SDRAM: 512 Mb DDR2 400 MHz. Internal onboard flash memory, 256 Mb.
Communication:	Ethernet connectivity with HTTPS capability for secure communications.
USB:	USB2 device - 6 ports for memory sticks, Wi-Fi, expansion boards, etc. USB2 OTG host port.
Punch Types:	Wide range of internal card reader types supported, including proximity and swipe - all featuring true plug-and-play capability. Biometric fingerprint reader optional.
Power:	Power options include 12 Vdc jack, internal mains PSU, and IEEE802.3af power over Ethernet.
Battery:	Internal Lithium-Polymer battery option to run terminal during power failure.
