Project Resource Management Module for Capacity Planning

Journyx resource management software
(Journyx PX) takes all the core functionality of our standard time tracking solution, Journyx JX, and adds the ability to forecast costs, revenues, and resource availability for future projects.

PX will supercharge your project cost accounting by estimating and tracking work at the resource level—giving you a complete picture of project and budget status, employee time, and availability, all in one place.

- Keep your projects moving—on time and on budget
- Allocate staff resources to maximize project profitability
- Use robust reporting to optimize resources for quality and project cost control
- Report on and manage your projects to optimize profits

All backed by world-class customer support and professional services!
