TIME TRACKING SOLUTIONS FOR SAGE INTACCT

Easy for employees.
## Powerful for complex businesses.

Journyx delivers solutions that enable organizations to track their time. Whether you're looking for time tracking for payroll or project time tracking, Journyx has you covered. And, our out-of-the-box integration with Sage Intacct allows you to rest easy knowing that relevant time, expense, and equipment data are passed seamlessly into Sage Intacct without the headaches of "cobbled together" solutions in your tech stack.

Project Time, Expense, and Equipment Tracking for Cost Accounting

Journyx project time, expense, and equipment tracking software (Journyx JX) streamlines the collection and processing of timesheets. Journyx JX helps you effectively increase project/ account profitability, streamline client billings, and reduce payroll time and errors.
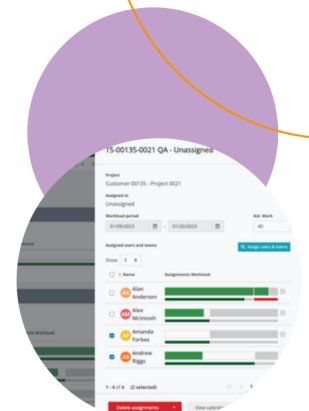

With Journyx JX, you can easily create financial reports based on your real-time time and expense data to get the guidance you need, when you need it.

• Reduce costs and increase revenues by automating your time, expense, and equipment tracking

• Simplify the process of managing employee time off—vacation, sick leave, jury duty, and the like

• Make better decisions with robust profitability reporting based on real-time data

A **resource management** option adds the ability to forecast costs, revenues, and resource availability for future projects.

Supercharge your project cost accounting by estimating and tracking work at the resource level—giving you a complete picture of project and budget status, employee time, and availability, all in one place.
