

## Time Tracking and Your Clients' Other Business-Critical Systems

Easy for client employees. Powerful for complex accounting needs.

Journeyx delivers solutions that enable organizations to track their time. Integration with other key business systems, such as ERP or payroll solutions, along with business analytics tools, is key to reducing costs and streamlining processes to ensure that your clients' data is orchestrated effectively, and their businesses run in an optimal fashion.

### Integrations with top ERP, HR/Payroll, and Business Intelligence solutions

Journeyx is committed to delivering the easiest integrations in the time tracking industry. This focus ensures you and your clients a feature-rich, seamless integration with their ERP or payroll provider of choice.

Journeyx has deep experience in the Microsoft Dynamics ecosystem, and recently added Sage Intacct, Oracle NetSuite, Primo Payday, and Greenshades to our list of integrated systems/partners.
