

# PROJECT TIME TRACKING SOLUTIONS

Easy for employees. Powerful for complex accounting needs.

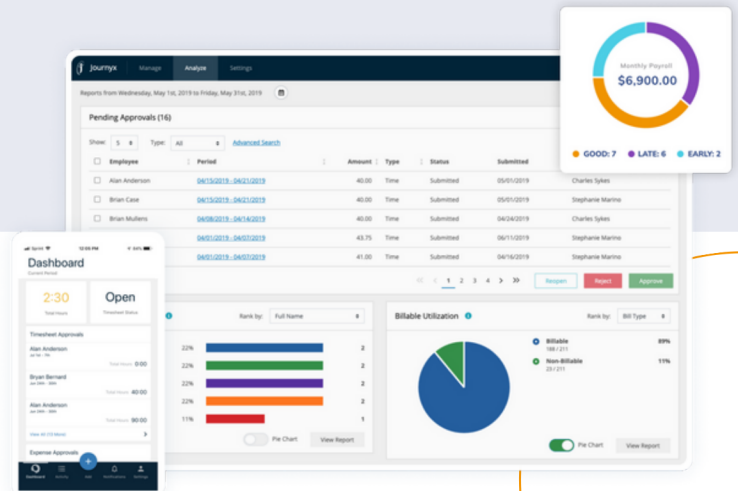

Journyx delivers solutions that enable organizations to track their time. For customers looking for project time and expense tracking, along with resource capacity planning and management, Journyx has you covered. Tie in with your clients' ERP system and business analytics tools to help them easily and accurately track employee time and resource costs for projects, billing, and payroll.

## Project Time, Expense, and Equipment Tracking for Cost Accounting

**Journyx project time, expense, and equipment tracking software** (Journyx JX) streamlines the collection and processing of timesheets. Journyx JX helps your clients effectively increase project/account profitability, streamline billings, and reduce payroll time and errors.

With Journyx JX, your clients can easily create financial reports based on their real-time time and expense data to get the guidance they need, when they need it.

- Reduce costs and increase revenues by automating time, expense, and equipment tracking
- Simplify the process of managing employee time off—vacation, sick leave, jury duty, and the like
- Make better decisions with robust profitability reporting based on real-time data

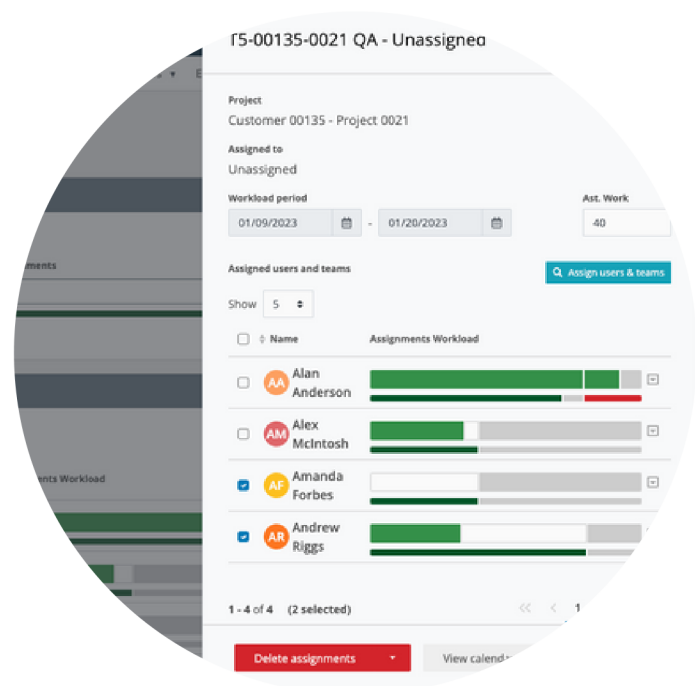

## Project Resource Management Module for Capacity Planning

### Journyx resource management software

(Journyx PX) takes all the core functionality of our standard time tracking solution, Journyx JX, and adds the ability to forecast costs, revenues, and resource availability for future projects.

PX will supercharge your clients' project cost accounting by estimating and tracking work at the resource level—giving a complete picture of project and budget status, employee time, and availability, all in one place.

- Keep client projects moving—on time and on budget
- Allocate staff resources to maximize project profitability
- Use robust reporting to optimize resources for quality and project cost control
- Report on and manage projects to optimize profits
